Medicine Dispenser(2 in 1) BD-200

"Medi-Pal" medicine feeder provides an easy, safe and accurate way to administer liquid medication or dietary supplements to your baby. Its soft nipple fits comfortably in baby's mouth and its translucent color allows you to observe the dispensing for the whole time. The specially designed tube inside the cup keeps any liquid under 5 ml from leaking at any position. It also serves as ventilation hole and is adaptable to most standard syringes for additional medicine / water dispensing.

- + Pour medicine in cup or adapt syringe to administer liquid
- + Easy for baby to suck
- + Soft TPR pacifier (cherry)
- + 5ml standard syringe

Material-Silicone, PP
